

Helsinki at winter

Johanna Fagerholm, Paula
Viertola and Piia Larjomaa

Current problems:

- Lack of light
- Lack of communality
- Lack of beauty/attractive environment
- Lots of empty/ununused space in Helsinki area. Places and spots which are not in use in winter time.

Solutions:

- More light and attractiveness to environment
- Place for social communication and communality.
- Building service which eases current situation.
- Making it "available" so that people know service.

Key words: light, communality, joy, experience!

Timetable

- Week 35: Precising concept and background study, existing concepts and defining target group. Questionnaire to possible users and contacting to institutions.
- Week 36: Presenting concept to tutors (sketches etc.) and further development of the case. Handling information collected by questionnaire. Search for possible financers, producers and co-workers.
- Week 37-41 Modelling, developing and finalizing project.
