

# BICYCLE REPAIR STATION

<http://lad.metropolia.fi/>

There is a need and existing target group

Juha Johansson, Julia Paloranta, Anna-Mari Knuuti

## WHAT

### A self repair station for bicyclist

For fixing the most common bicycle malfunctions.

Including tools, tutorials and all of the needed functions located practically to make the repairing easy.

Open for all.

## WHERE

### Located next to gas stations.

Gas stations are located near to most used bicycle lanes.

Self repair station works on its own but has the benefit of existing surveillance of the gas station and the existing location too.

## WHY

### to make the image of gas stations more environmentally friendly

Bicycling should be made easier to encourage people to use a bicycle more often in their daily lives.

According to survey **87%** of the participants would repair their bike on a self repair station.
