

Invitation

The theme for Metropolia's International Week from 10 - 14 March, 2014 is Creative Wellbeing.

Helsinki Metropolia University of Applied Sciences warmly welcomes both lecturers and students from its partner institutions to exchange knowledge, experiences and ideas as well as to create inspiring networks.

The International Week starts on Monday 10th March with an International Staff Development Day, providing a possibility for "speedy benchmarking" in workshops. Visiting lecturers are welcome to suggest topics and host a workshop.

Additionally there will be a possibility to give lecturers and arrange workshops to Metropolia students. The involvement of visiting students in these arrangements is welcomed, when possible.

A joint Thesis Session will be organised for visiting and Metropolia students, who are planning or in the middle of their Bachelor Thesis process. This is an opportunity to initiate international, comparative thesis projects and to share experiences otherwise.

Some leisure time programme will be arranged for both visiting lecturers and students, including a cocktail party, a Helsinki City Tour and a Student's night.

Registration

Online registration form available at <https://elomake.metropolia.fi/lomakkeet/8693/lomake.html>
